(a) the premises the applicant proposes to use are appropriate for the storage and handling of grain;

(b) the elevator is or will be of such type and in such condition and the equipment of the elevator is or will be of such type and size and in such condition as to enable the applicant to provide at the location where he proposes to operate the elevator the services required by or pursuant to this Act to be provided at that location by a licensee holding a licence of the class for which the applicant has applied; and

(c) he is financially able to carry on the proposed elevator operation and has given security by bond, insurance or otherwise sufficient to ensure that all obligations to holders of documents for the payment of money or delivery of grain issued by the applicant pursuant to this Act will be met.

(3) The Commission may refuse to issue a licence where the applicant has been convicted of an offence under this Act within the twelve months immediately preceding his application and the Commission is satisfied that it would not be in the public interest to issue a licence to him.

(4) The Commission shall, before refusing to issue a licence, afford the applicant for the licence or his representative a full and ample opportunity to be heard in relation to the application.

(5) Any refusal to issue a licence shall be by Order of the Commission.

Such elevators' and dealers' licences are issued by the Canadian Grain Commission through the Economics and Statistics Division. The office also supervises the implementation of Section 36(c) under which all such licences must be secured by bond or otherwise for the performance of all obligations imposed upon them by the Act.

Requirements as to facilities and equipment and rules and regulations governing the conduct of licensees and the operations of licensed facilities are carried in various sections of the Canada Grain Act, the Canada Grain Regulations and in orders and directives of the Commission as may be issued from time to time.

(36) "élévateur primaire" désigne un élévateur servant principalement à recevoir du grain directement des producteurs soit pour stockage, soit pour expédition, soit pour l'un et l'autre;

(38) "élévateur de conditionnement" désigne un élévateur servant principalement à la réception et au stockage du grain en vue de le transformer sur place en d'autres produits;

(48) "élévateur terminus" désigne un élévateur servant principalement à la réception de grain lors de son inspection et de sa pesée officielle ou par la suite, ainsi qu'à son nettoyage, stockage et traitement avant son expédition;

(49) "élévateur de transbordement" désigne

(a) un élévateur de la division de l'Ouest ou de la division de l'Est servant principalement au transbordement de grain qui a été officiellement inspecté et officiellement pesé dans un autre élévateur, et

(b) un élévateur de la division de l'Est servant principalement au transbordement de grain qui a été officiellement inspecté et officiellement pesé dans un autre élévateur ainsi qu'à la réception, au nettoyage et au stockage du grain de l'Est ou de grains étrangers.

Article 36. (1) Aucun permis d'exploitation d'un élévateur ne doit être délivré à moins que le requérant du permis n'établisse à la satisfaction de la Commission

(a) que les installations que le requérant se propose d'utiliser conviennent au stockage et à la manutention du grain;

(b) que l'élévateur est ou sera d'un genre, d'une dimension et dans un état, et l'équipement est ou sera d'un genre, d'une dimension et dans un état permettant au requérant de fournir, au lieu où il se propose d'exploiter l'élévateur, les services que le titulaire d'un permis de la catégorie pour laquelle le requérant a fait une demande est tenu de fournir aux termes ou en application de la présente loi; et

(c) qu'il est financièrement capable de poursuivre l'exploitation de l'élévateur qu'il se propose d'exploiter et qu'il a donné sous forme de cautionnement, d'assurance ou sous une autre forme une garantie suffisante pour assurer le respect de tous les engagements envers les détenteurs de documents, relatifs au versement de fonds ou à la livraison de grains, établis par le requérant en application de la présente loi.

(2) Aucun permis de négociant en grains ne doit être délivré à moins que le requérant du permis n'établisse à la satisfaction de la Commission qu'il est financièrement capable de faire le commerce de négociant en grains qu'il se propose de faire et qu'il a donné sous forme de cautionnement, d'assurance ou autrement une garantie suffisante pour assurer le respect de tous les engagements envers les détenteurs de documents, relatifs au versement de fonds ou à la livraison de grains, établis par le requérant en application de la présente loi.

(3) La Commission peut refuser de délivrer un permis lorsque le requérant a été déclaré coupable d'une infraction prévue par la présente loi dans les douze mois qui précèdent immédiatement sa demande et que la Commission est convaincue qu'il ne serait pas d'intérêt public de lui délivrer un permis.

(4) La Commission doit, avant de refuser de délivrer un permis, donner au requérant du permis ou à son représentant la plus large possibilité d'être entendu au sujet de la demande.

(5) Tout refus de délivrance d'un permis doit être fait par arrêté de la Commission.

Les permis de silos et de négociants sont délivrés par la Division de l'économie et de la statistique (Commission canadienne des grains). Ce bureau veille également à l'application de l'article 36, paragraphe 1, alinéa (c), aux termes duquel tous les titulaires de permis doivent donner sous forme de cautionnement ou sous une autre forme une garantie suffisante pour assurer le respect de tous les engagements que leur impose la Loi.

Les conditions concernant les installations et le matériel ainsi que les règles régissant la conduite des titulaires de permis et l'exploitation d'installations autorisées font l'objet de plusieurs articles de la Loi sur les grains du Canada, du Règlement sur les grains du Canada ainsi que des ordres et des directives que la Commission émet de temps à autre.

NOTE: In most instances where a grain company operates two or more primary elevators at one location, the operations have been combined under a single manager. Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator. The 1967 elevators individually licensed as at August 1, 1984 reflect only 1885 'operating units'. The above table indicates this pattern, according to the major companies. **The bracketed figures indicate the licensed separate units. It should be recognized that this statement reflects a constantly changing situation and is based upon the latest available data.**

NOTA: Dans la plupart des cas, lorsqu'une compagnie de grain exploite deux silos primaires ou plus au même endroit, les exploitations ont été combinées et relèvent d'un seul directeur. Dès le début de la campagne agricole 1984-1985, la Commission canadienne des grains accepta d'émettre un seul permis aux exploitants de deux silo au plus lorsque ces silos sont gérés par une seule personne et qu'ils sont attenants. Les 1967 silos agréés séparément au 1er août 1984 représentent seulement 1885 'unités d'exploitation.' Le tableau ci-dessus indique ce mode de développement pour les compagnies les plus considérables. **Les chiffres entre parenthèses indiquent les unités distinctes agréés. Il faut se rappeler que c'est une situation qui évolue sans cesse et qui est fondée sur les plus récentes données disponibles.**

"Decrease" In The Number of Primary Elevator Licences

Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

As a result of this policy and the continued rationalization of the primary elevator system, the number of licences issued declined dramatically, going from 2,800 in 1983-84 to 1,967 on August 1, 1984.

Dimunition du nombre de permis de silos primaires

Dès le début de la campagne agricole 1984-85, la Commission canadienne des grains accepta d'émettre un seul permis aux exploitants de deux silo au plus lorsque ces silos sont gérés par une seule personne et qu'ils sont attenants.

Suite à cette nouvelle politique et à la consolidation du système de silos primaires, le nombre de silos agréés passa depuis 2 800 pendant la campagne 1983-1984 à 1,967 silos au 1er août 1984.
